ORD 7652-67

22 December 1967

**MEMORANDUM FOR:** Chief, Applied Physics Division  
Office of Research and Development

**SUBJECT:** Coordination Meeting with TSD

1. On 21 December a joint AP/ORD meeting was held with TSD to coordinate the TSD requirements for the Applied Physics Division of ORD in general through and including FY 1970. Persons at the meeting were:

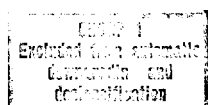

TSD:

ORD:

[Redacted area]

2. The initial portion of the meeting was devoted to a general discussion by TSD of the areas in which they felt would represent their major interests through and including FY 1970. Specifically, TSD referred to their memorandum of 14 July 1967 which enumerated items they felt were of interest at that time. All of the items, i.e., 1 through 4, are still of high interest and represent a typical frame of reference. At this time item No. 5 of that memorandum carries less significance as an area of requirement for AP.

3. Additional major areas of interest as expressed by TSD were:

ILLEGIB  
25X1  
ILLEGIB  
a. [redacted] TSD felt that this was an expensive area for them and that ORD should spend a portion of its budget for it (and specifically cited as an illustrative area, [redacted] As a further clarification, TSD indicated that the purpose of this effort was to [redacted] from the source area [redacted] Further, AP should pursue and keep abreast of other Government R&D activities so as to exploit any emerging technologies especially those developed as a result of funding by other Government groups.

b. [redacted] It was suggested that additional work in [redacted] possibly with some effort in the [redacted] would be of value to TSD.

3) [ ] Investigation should be  
made into the feasibility and means for embodying  
audio surveillance -- [ ]

25X1

4. A review was then made by TSD of the audio surveillance  
and microtechnology goal areas of AP and comments were made with  
regard to each category within those goal areas. These comments  
were general in nature to show the TSD interest as potentially  
projected through FY 1970.
